

# STORM

AQUATEC

## SETTING THE TIME & DATE

Unscrew anti-clockwise and pull out the crown to set date & time. Pull crown to the first click position and turn clockwise to change date. Pull out crown to the second click position for time adjustment. After setting the date & time, push crown in, then turn clockwise and tighten to ensure water resistance.

Always ensure the crown is screwed tightly.  
Do not operate crown when the watch is wet or in water.  
NB This is not a professional divers watch.
